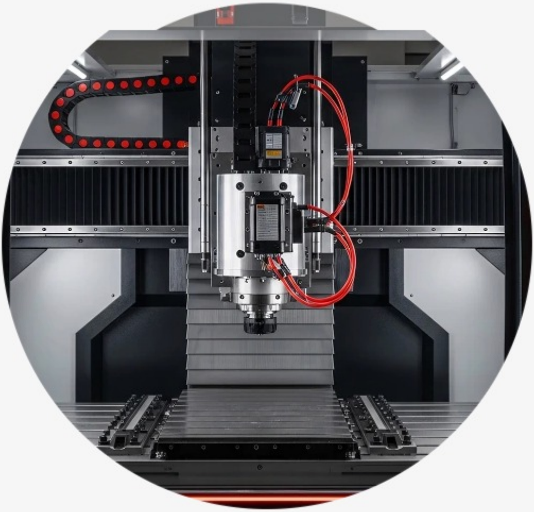
20+

Delivering consistent manufacturing excellence since day one.



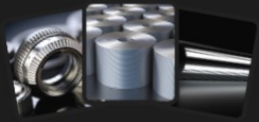
MANUFACTT®

100+

Trusted by businesses across multiple industries

4.9 /5.0

★★★★★



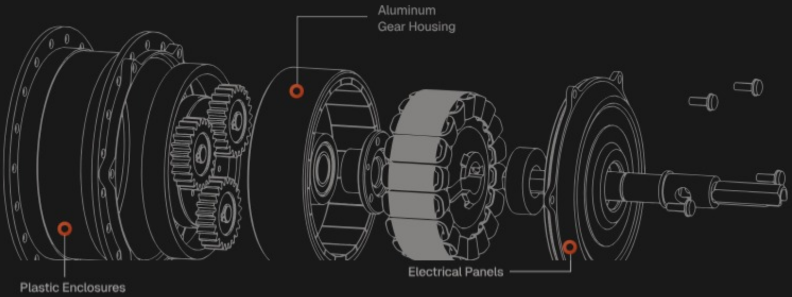
1 million+

Precision-crafted components delivered globally

■ What We Manufacture

50,000.

Precision-built products delivered to clients across industries and continents.



Aluminum gear housing

Precision CNC machined aluminum housings for gear systems and machinery.

Material	Aluminum 6061 / 7075
Capability	CNC Machining
Size Range	Custom dimensions up to 500mm

Custom plastic enclosures

Injection molded enclosures for electronics and telecom applications.

Material	ABS, Polycarbonate, Nylon
Capability	Injection Molding
Size Range	Varies – custom moldable

PC
Set
Mn
Ex
Esc

Weather-resistant control panels for industrial automation systems.

Material	**Mild Steel, Stainless Steel**
Capability	**Sheet Metal Fabrication & Assembly**
Size Range	**Small to full-scale cabinets**

Precision Shaft Assemblies

High-precision steel shafts for automotive and industrial equipment.

Material	Alloy Steel, Stainless Steel
Capability	Turning & Grinding
Size Range	Up to 1200mm

Explore our complete product range across industries.

■ Built For Every Industry

Manufacturing solutions for every industry

Aerospace industry

Automotive

Medical devices

Energy & Power

Industrial equipment

Aerospace

Certified aerospace components built for mission-critical performance and full traceability.

- ✓ Full material traceability
- ✓ NADCAP special process approval
- ✓ Critical safety component expertise

■ Real-World Success

Real results from projects

← →

Lightweight castings for Industrial equipment

Redesigned metal castings to reduce material use and maintain strength, optimizing cost and weight.
