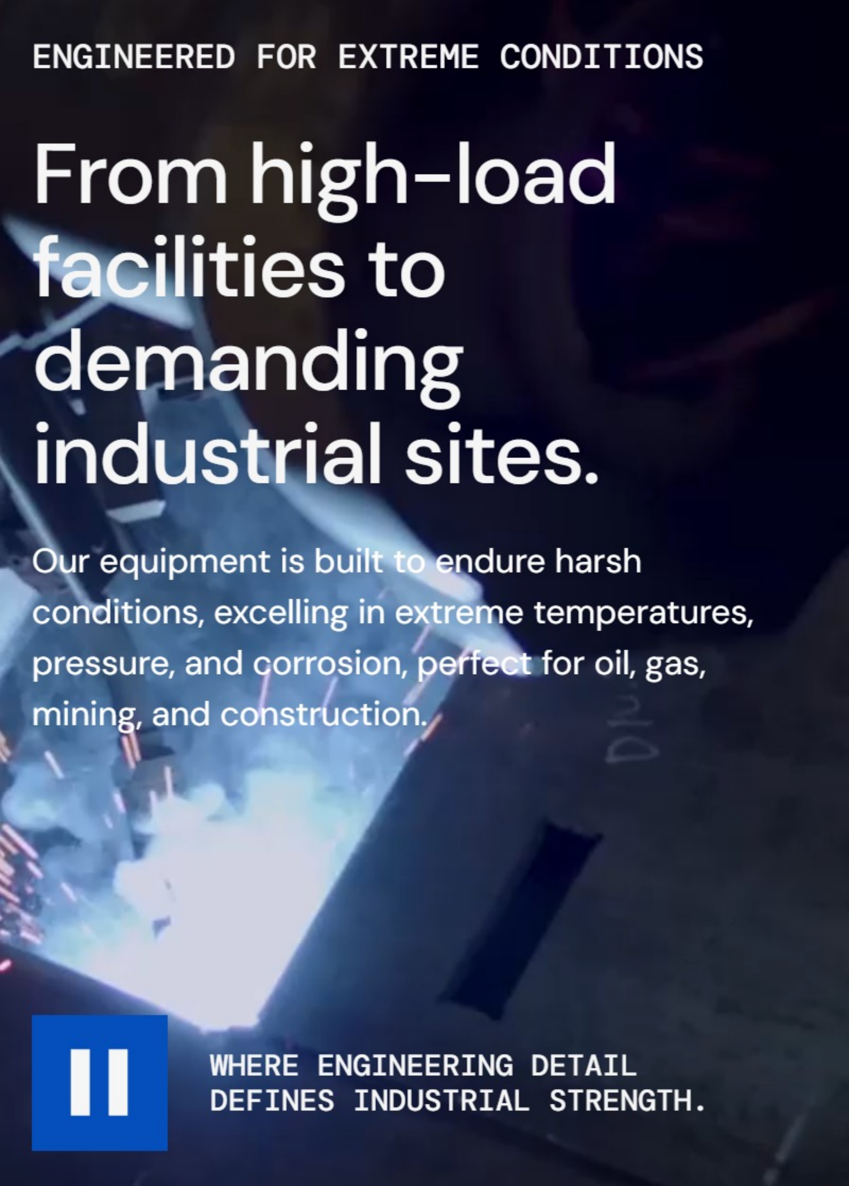
ABOUT LOADEX

Loadex manufactures and supplies heavy-duty machinery for industries like construction, manufacturing, logistics, and energy.

Every Loadex solution is engineered to handle extreme loads, harsh conditions, and continuous operation, helping businesses increase productivity while reducing operational risks.

LEARN MORE



ENGINEERED FOR EXTREME CONDITIONS

From high-load facilities to demanding industrial sites.

Our equipment is built to endure harsh conditions, excelling in extreme temperatures, pressure, and corrosion, perfect for oil, gas, mining, and construction.

WHERE ENGINEERING DETAIL
DEFINES INDUSTRIAL STRENGTH.

EQUIPMENT

Equipment for large-scale industrial use.

LOADER SYSTEMS

CAPACITY: Up to 80t

OPERATION: Hydraulic / Electric

Designed for efficient material handling in industrial and logistics environments.

→

FORKLIFTS

CAPACITY: Up to 80t

OPERATION: Hydraulic / Electric

Designed for efficient material handling in industrial and logistics environments.

→

CONVEYOR SYSTEMS

CAPACITY: High-Load Rated

OPERATION: Automated / Continuous

Automated systems for seamless material movement and production efficiency.

→

INDUSTRIAL CRANES

CAPACITY: Up to 150t

OPERATION: Electric / Hybrid

Built for lifting, positioning, and securing heavy loads with maximum safety.

→

EXPLORE ALL EQUIPMENT

OUR SERVICES

Professional support is available at every stage of the process.

Engineering & Design

We assess needs and create equipment for optimal performance, safety, and efficiency.

SERVICE FOCUS:

- Custom Engineering
- Load Analysis
- Technical Documentation

LEARN MORE

Manufacturing & Assembly

Equipment is crafted with certified processes and rigorous quality checks throughout.

SERVICE FOCUS:

- In-House Production
- Quality Inspection
- Standards Compliance

LEARN MORE

Installation & Commissioning

Experts guarantee precise installation, testing, and calibration on site.

SERVICE FOCUS:

- On-Site Setup
- System Testing
- Operational Readiness

LEARN MORE

Maintenance & Support

We offer continuous maintenance, inspections, and support to reduce downtime.

SERVICE FOCUS:

- Preventive Maintenance
- Spare Parts
- Technical Support

WHY CHOOSE LOADEX

Built for Performance. Designed for Industry.

Heavy-Duty Engineering

Designed to withstand the toughest industrial environments.

Precision Manufacturing

Advanced processes guarantee

precision and reliability.

Industry Compliance

All equipment meets international safety and quality standards.

End-to-End Support

Complete support from design to to installation and maintenance.

WORK WITH US →

CLIENT FEEDBACK

Industrial companies rely on Loadex for equipment that performs reliably under real operational conditions.

Michael Turner

Operations Manager

Loadex equipment has been running in our facility around the clock with consistent performance. The engineering quality is evident in every detail.
