

BUILT TO CARRY

Engineering heavy-duty performance

Precision-engineered industrial equipment for heavy loads, continuous operation, and demanding environments.

COMPLIANCE
ISO • CE • Safety Certified

LOAD CAPACITY
Up to 80t

OPERATIONAL CYCLES
24/7 Continuous Use

ABOUT LOADEX

Loadex manufactures and supplies **heavy-duty machinery** for industries like construction, manufacturing, logistics, and energy.

Every Loadex solution is engineered to handle extreme loads, harsh conditions, and continuous operation, helping businesses increase productivity while reducing operational risks.

[LEARN MORE](#)

From high-load facilities to demanding industrial sites.

ENGINEERED FOR EXTREME CONDITIONS

Our equipment is built to endure harsh conditions, excelling in extreme temperatures, pressure, and corrosion, perfect for oil, gas, mining, and construction.

WHERE ENGINEERING DETAIL DEFINES INDUSTRIAL STRENGTH.

EQUIPMENT

Equipment for large-scale industrial use.

[EXPLORE ALL EQUIPMENT](#)

LOADER SYSTEMS

CAPACITY: Up to 80t
OPERATION: Hydraulic / Electric

Designed for efficient material handling in industrial and logistics environments.

[→](#)

FORKLIFTS

CAPACITY: Up to 80t
OPERATION: Hydraulic / Electric

Designed for efficient material handling in industrial and logistics environments.

[→](#)

CONVEYOR SYSTEMS

CAPACITY: High-Load Rated
OPERATION: Automated / Continuous

Automated systems for seamless material movement and production efficiency.

[→](#)

INDUSTRIAL CRANES

CAPACITY: Up to 150t
OPERATION: Electric / Hybrid

Built for lifting, positioning, and securing heavy loads with maximum safety.

Engineering & Design

WE ASSESS NEEDS AND CREATE EQUIPMENT FOR OPTIMAL PERFORMANCE, SAFETY, AND EFFICIENCY.

SERVICE FOCUS:

- Custom Engineering
- Load Analysis
- Technical Documentation

[LEARN MORE](#)

Manufacturing & Assembly

EQUIPMENT IS CRAFTED WITH CERTIFIED PROCESSES AND RIGOROUS QUALITY CHECKS THROUGHOUT.

SERVICE FOCUS:

- In-House Production
- Quality Inspection
- Standards Compliance

[LEARN MORE](#)

Installation & Commissioning

EXPERTS GUARANTEE PRECISE INSTALLATION, TESTING, AND CALIBRATION ON SITE.

SERVICE FOCUS:

- On-Site Setup
- System Testing
- Operational Readiness

[LEARN MORE](#)

Maintenance & Support

WE OFFER CONTINUOUS MAINTENANCE, INSPECTIONS, AND SUPPORT TO REDUCE DOWNTIME.

SERVICE FOCUS:

- Preventive Maintenance
- Spare Parts
- Technical Support

WHY CHOOSE LOADEX

Built for Performance. Designed for Industry.

[WORK WITH US →](#)

Heavy-Duty Engineering

Designed to withstand the toughest industrial environments.

Precision Manufacturing

Advanced processes guarantee precision and reliability.

Industry Compliance

All equipment meets international safety and quality standards.

End-to-End Support

Complete support from design to to installation and maintenance.

CLIENT FEEDBACK

Industrial companies rely on Loadex for equipment **that performs reliably** under real operational conditions.

Michael Turner
Operations Manager

Loadex equipment has been running in our facility around the clock with consistent performance. The engineering quality is evident in every detail.

Andreas Müller
Project Director

From initial consultation to installation, the Loadex team delivered exactly what was promised — on time and to specification.

INSIGHTS & RESOURCES

Expert knowledge for industrial decision-makers.
