

Custom Cruise

Throttle Position Sensor

This data is crucial for the ECU/PCM to determine the appropriate fuel injection and ignition timing for optimal engine performance and fuel efficiency. Essentially, the TPS provides real-time feedback to the vehicle's computer system.

Happy Customers

Gearz and couldn't be they were easy to install and in my vehicle's braking

★★★★★

"I've been a customer of Gearz for years, and they never disappoint. Their customer service is top-notch, and their products are always reliable. Most recently, I bought an air filter, and it arrived quickly and fit perfectly."
